QUESTION 1

Your company uses Microsoft Teams.

A URL protection report shows many Blocked and clicked through actions.

You need to prevent users from clicking through to blocked URLs.

Which type of policy should you configure?

- A. Anti-spam
- B. Anti-phishing
- C. Safe Attachments
- D. Safe Links

Correct Answer: D

Safe Links is a feature in Defender for Office 365 that provides URL scanning and rewriting of inbound email messages in mail flow, and time-of-click verification of URLs and links in email messages and other locations. Safe Links scanning occurs in addition to the regular anti-spam and anti-malware protection in inbound email messages in Exchange Online Protection (EOP). Safe Links scanning can help protect your organization from malicious links that are used in phishing and other attacks.

QUESTION 7

SIMULATION Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time. When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality

(e.g. copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But you should manage your time appropriately to ensure that you are

able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

You may now click next to proceed to the lab.

Task 3

Adele Vance is a member of your company's technology adoption team.

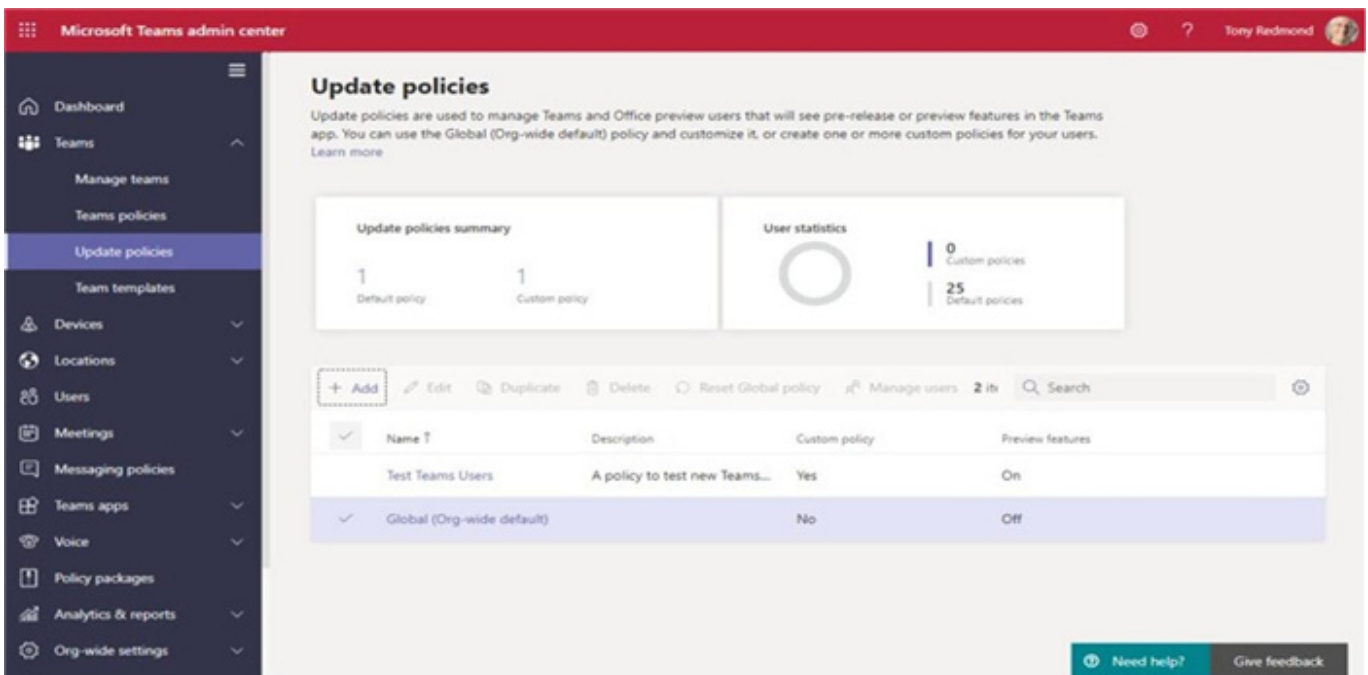

You need to provide only Adele with the ability to turn on and off Teams preview features.

To complete this task, sign in to the Microsoft 365 portal.

Correct Answer: Check the answer in explanation.

Teams supports the ability to allow selected users to enable Public Preview features in the desktop and browser clients for an early view of functionality. You'll need to create a new update policy in the Teams admin center and assign it to the people you want to access public preview.

Step 1: In Microsoft Teams admin center select Teams->Update policies

Step 2: Click Add

New update policy

Name

Description

Show preview features

On

Step 3: Set Show preview features to On, and click Apply.

Step 4: In Microsoft Teams admin center select Users, and Adele.

Once the new update policy is saved, it can be assigned to user accounts.

You can do this by editing user accounts through the Teams admin center and editing the set of policies assigned to the account.

Step 5: In the Edit user policies window select Update policy and select the policy you defined.
